# CLEAR SPAN STRUCTURAL MEZZANINES

Unistor Mezzanine Floors can range from a simple storage platform to a heavy duty structural floor individually designed & engineered to your requirements. Our systems are designed to be free standing and do not depend on the existing building for support. This means they can be relocated easily should you move, which makes our platforms a lifetime investment.

Why Unistor Mezzanines?

- ✓ 100% Australian owned, designed and manufactured
- ✓ Over fifty years experience in the industry
- ✓ Unistor Mezzanine floors are engineered, WH&S compliant and certified for loading
- ✓ 5 year guarantee on all workmanship

## UNI-TYRE HOIST

The uni-Tyre Hoist is designed to transport tyres from ground level to a mezzanine level with minimal manual handling involved. This increases efficiency while minimising chance of back injury.

- ✓ Small footprint / compact design
- ✓ Safety rail and emergency stops
- ✓ Chain is enclosed by shield
- ✓ Customised to suit any floor height
- ✓ Designed and made in Australia
- ✓ **Handling capacity: up to 25 tyres per minute**

Code: UTH3-4

## UNI-TYRE CHUTE

uni-Tyre Chute is the quickest and safest way of transporting tyres from a mezzanine to ground floor. This modular chute is manufactured to accommodate all sizes of tyres and any floor height.

Note: Please contact us for a quotation for any floor over 4.0m high.
